Cloud Engineer

Program Length

52 weeks

Program Objectives

NetSoft's Cloud Engineer Program trains students in AWS, Microsoft Azure, Google Cloud, Python, Docker, Kubernetes, Terraform, and DevOps products. This program empowers students to develop the proficiency needed to harness the power of these products and other Cloud and DevOps tools.

Certification Preparation

Employers set hiring benchmarks based on industry and vendor certifications. Job candidates who hold certifications are favored over those who do not. NetSoft's Cloud Engineer Program gives students a competitive edge by thoroughly preparing them for the following certification exams:

Courses

#	Title of Course	Hours
1.	AWS Certified Solutions Architect Associate	120
2.	AWS Certified Advanced Networking Specialty	96
3.	AWS Certified Security Specialty	96
4.	Microsoft Certified Azure Solution Architect Expert	120
5.	Microsoft Certified Azure Network Engineer Associate	96
6.	Microsoft Certified Azure Security Engineer Associate	96
7.	Google Cloud Certified Associate Cloud Engineer	96
8.	Google Cloud Certified Professional Cloud Architect	96
9.	Certified Associate Python Programmer	96
10.	Docker Certified Associate	96
11.	Certified Kubernetes Administrator	72
12.	HashiCorp Certified Terraform Associate	72

NOC Code: 2281/22220

Program Benefits

- Career Services
- Exam Vouchers
- Free Refresher Courses
- Globally-Recognized Diploma
- Industry-Experienced Instructors
- Industry-Recognized Curriculums
- Instructor-Led Courses
- Job Search Assistance
- Practice Tests (where applicable)
- Small Class Sizes

Employers of Our Alumni

Air Canada	Four Seasons	Maple Leaf Foods	Scotiabank

Date	19 Nov, 2024

Average wage (\$/hr):
\$35.58

High wage (\$/hr):
\$58.24

Career Opportunities

Some graduates may begin as a:

- AWS Cloud Specialist
- Azure Solution Engineer
- Cloud Automation Engineer
- Cloud Cost Optimization Analyst
- Cloud Engineer
- Cloud Migration Specialist
- Cloud Network Specialist
- Cloud Platform Developer
- Cloud Security Analyst
- DevOps Engineer (Cloud Platforms)
- Hybrid Cloud Engineer
- Junior Cloud Administrator
- Junior Cloud Engineer
- Junior Cloud Support Specialist
- Junior DevOps Engineer (Cloud)
- Junior Network Analyst
- Kubernetes Administrator
- Multi-Cloud Solutions Architect
- Principal Cloud Consultant
- Senior Cloud Administrator
- Senior Cloud Architect
- Senior DevOps Engineer
- System Support Analyst
- System Support Engineer

Graduation Requirements

Students who successfully complete the program and pass the final exam will receive a diploma approved by the Ministry of Colleges and Universities. The diploma will be awarded based on the following criteria:

- 1 The student must pass each course with a minimum grade of 60 per cent and meet all standards related to contact hours.
- 2 The student must maintain a satisfactory attendance rate of at least 80 per cent.
- 3 The student must not have any outstanding fees.

Admission Requirements

- 1 Have an Ontario Secondary School Diploma or equivalent.
OR
- 2 Be at least 18 years old when or before the program begins and pass a qualifying test* that has been approved by the Superintendent.
*The approved qualifying test for this program is the Wonderlic test, with a passing score of 18.
- 3 Have at least one year of experience in the IT industry (a letter from an employer is required at the time of admission)
OR any of the following certifications: A+, MCP, MCSA, MCSE, CCNA, or CCNP.

Please contact us for more details regarding admissions requirements if you are an international student.

Note: To continuously improve our programs, NetSoft reserves the right to modify them at any time. The order of program delivery depends on the program start date. For certifications, please refer to the vendor site for the latest information about exam numbers, statuses, and prerequisites. All trademarks mentioned in this document or website are the property of their respective owners.

Infrastructure Analyst

Program Length

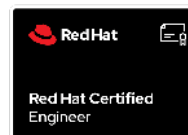

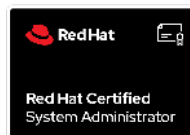

52 weeks

Program Objectives

NetSoft's Infrastructure Analyst Program trains students in administering, implementing, and supporting Microsoft, Citrix, VMware, Cisco, and Red Hat products. NetSoft's courses provide students with the building blocks required to efficiently manage and support Microsoft Windows Servers, Microsoft Azure, Microsoft Intune, Microsoft 365, Citrix Virtual App, Citrix Virtual Desktop, VMware vSphere, Cisco routers, Red Hat, Ansible, etc. This program empowers students to develop the proficiency needed to harness the power of these products.

Certification Preparation

Employers set hiring benchmarks based on industry and vendor certifications. Job candidates who hold certifications are favored over those who do not. NetSoft's Infrastructure Analyst Program gives students a competitive edge by thoroughly preparing them for the following certification exams:

Courses

#	Title of Course	Hours

Why NetSoft?

1 Build the Skills You Will Need in Your IT Career Through Real-World Applications

NetSoft combines formal educational methods with real-world applications and hands-on experience. While both approaches promote skill development, many of our students find that the best way to learn is by doing. At NetSoft, you will apply what you learn in the classroom to everyday career situations.

2 Graduate and Enter the Workforce Within 12 Months

NetSoft's programs are structured so that you can graduate with a diploma and join the workforce in one year or less, allowing you to pay debts faster and begin your career sooner. At NetSoft, you will not be forced to take elective courses that do not pertain to your chosen career. Instead, you can focus your time on the courses that directly apply to your field of study.

3 Learn from Instructors with Industry Experience

NetSoft only employs instructors who are knowledgeable, passionate, creative, flexible, and able to connect with students. Our instructors have real-world experience and insight and are trained to coach students toward their goals based on their abilities. As a NetSoft student, you will have instructors available to provide the support and mentorship you need as you launch your career.

4 Create a Professional Network with Free Seminars and Events

NetSoft offers seminars and events to help our graduates connect with one another and jump-start their careers by exchanging job details, sharing professional contacts, and building lifelong bonds. Statistics show that most people find their first job through a personal connection, which is why NetSoft is committed to helping our students create broad professional networks.

5 Study Industry-Recognized Curriculums

NetSoft's curriculum is updated frequently to stay aligned with the demands of the IT industry. NetSoft's instructors develop course programs that result in certifications, giving graduates more credibility and recognition in the job market. Certified graduates are often given priority over other applicants, as employers are confident that they have the skills necessary to be successful in the workforce.

6 Graduate with a Globally Recognized Diploma

NetSoft is registered as a career college under the *Ontario Career Colleges Act, 2005*, and programs offered by NetSoft are recognized worldwide.

7 Gain Confidence with Free Refresher Courses

NetSoft's graduates receive free refresher courses at no cost. Graduates can solidify their knowledge or refresh their skills by retaking courses as needed without incurring additional costs. Please note that in the unlikely event that course prices or materials change, students are required to pay the difference.

8 Fund Your New Career with Easy Financing

In addition to various government programs, NetSoft can help you finance your education over the course of your program. NetSoft can also recommend banks to assist you with loans for tuition fees. Most loans will be arranged as a student line of credit. Please refer to our *Financial Aid* guide for more information about financial support options.

9 Get the Job-Seeking Skills You Need to Launch Your Career

NetSoft knows that career development provides the foundation for lasting professional achievement. This is why we offer a career preparation course called Hire Me (Career and Employment Strategies). The Hire Me course trains students in résumé writing, interview preparation, and other employment-seeking strategies. NetSoft's Hire Me (Career and Employment Strategies) course trains students to handle the industry's toughest interviews, increasing their success rate.

10 Participate in 100% Instructor-Led Courses

NetSoft's courses provide more opportunities for participation, encouraging students to interact with their classmates and instructors.

Testimonials

Adnan Iqbal

"Taking a course at NetSoft helped bring out my confidence. It's not just a technical institution; it's a life-changing establishment. The instructors guide you, motivate you, push you, and care about you."

Ali Rajabi

"At NetSoft, instructors push you to do your best, but they make it fun and interesting with their knowledge and experience. They teach you things that you cannot learn anywhere else."

Ali Zain Ghumman

"NetSoft is a fantastic, modern institution whose instructors adhere to superlative ethical standards. My friendships with other students are priceless!"

Analyn Cachero De Vera

"My instructor was full of energy and enthusiasm and was passionate about helping me reach my goals."

Andre Douglas

"This has been one of the best courses I have ever taken—if not the best. My instructor had superior knowledge and skill, and I appreciated his openness and ability to share his real-world experiences."

Armaanot Kaur Madahar

"My instructor used a flexible, fact-based approach. He was extremely professional and delivered information quickly and concisely. Additionally, he possessed magnificent motivational skills."

Testimonials

Avalenna Nelson

"The instructors at NetSoft do not rush through the courses. They like to ensure all students understand the material and take the time to explain even the simplest topics fully."

Carl O. Dankwah

"The information and concepts covered in this course were completely new to me, but the instructor's teaching method ensured that I excelled."

Chukwudumebi Clarence Ben-Okafor

"The courses can be intense, but you develop a life-changing understanding of hard work that will lead you to success. As the saying goes, 'No pain, no gain!'"

Douglas A. Parra

"Words cannot express the depth of my gratitude. NetSoft has greatly improved my life by significantly expanding my knowledge and career opportunities."

Hussein Karmali

"Courses at NetSoft are always fun, innovative, and interactive. From the instructors to the course material, there is never a disappointment or a dull moment."

Junaid Bukhtawer

"I found all the topics helpful during the course and learned something new every day. The content was all relevant and useful."

Testimonials

Mahum Khan

"Great information! Great experience!
Great job!"

Muhammad Daniyal Siddiqui

"NetSoft instructors are very dedicated and want to see you succeed. Students receive lots of one-on-one time, which increases their level of understanding tremendously."

Mursal Bakhtari

"The best part of taking a course at NetSoft is not only learning technical skills but also having the opportunity to attend seminars and workshops to boost your physical, mental, and spiritual health."

Owais K. Yousuf

"I have been in this field for several years and did not think I could learn much more. I will be the first to admit that I was wrong. I now believe that you never stop learning."

Snezana Lainovic

"The VMware vSphere course was superb — very thorough and extremely well presented. I highly recommend it."

Suleman Malik

"My instructor at NetSoft was very enthusiastic. He involved the class through discussion and was extremely detailed and thorough. Overall, the course was exceptional."
